- Print or type all entries. Print clearly in all CAPITAL LETTERS to complete this form. To type entries, use the fillable PDFs available through Liberty and at <https://www.axosadvisorservices.com/Forms-and-Applications/>.

IMPORTANT: Do not use this form to request a transfer of assets from your Axos Advisor Services IRA/Roth account to another IRA/Roth account in your name at another trustee or custodian. Use the new custodian's transfer form to complete this type of transaction.

IMPORTANT: Do not use this form to request a one-time distribution from a deceased account owner's retirement account or your beneficial/inherited IRA/Roth account. Use the Beneficiary Distribution Request form to request a one-time distribution.

IMPORTANT: The terms "employer," "plan trustee," and "plan administrator" are used interchangeably on this document.

IMPORTANT: It is your responsibility to pay all taxes, interest and penalties that may be imposed by the relevant governmental authority. In most situations, Axos Advisor Services is required to issue a Form 1099-R for distributions from your IRA. Depending on the nature of the distribution, the distribution may or may not be taxable. For additional information, consult your tax advisor or the IRS.

SECTION 1: Account Owner

Enter the account owner information for this account exactly as it appears on your Axos Advisor Services account. For new accounts, enter the account name exactly as it is written on the application form.

SECTION 2: Account Type

SECTION 4: Reason for Distribution

This information is required for IRS reporting purposes. It is your responsibility to pay all taxes, interest and penalties that may be imposed by the relevant governmental authority. Please consult your tax advisor or the IRS to determine the requirements for any of the listed distribution types. In most situations, Axos Advisor Services is required to issue a Form 1099-R for distributions from your IRA. Depending on the nature of the distribution, the distribution may or may not be taxable. Note: If no selection is made, Axos Advisor Services will default to either "normal" or "premature" distribution based on your age. Additional information for each type of distribution can be found on the form. For additional information, consult your tax advisor or the IRS.

Check the appropriate box to indicate the type of action you want to take with this form.

- Disability (underage 59½; not subject to 10% early withdrawal penalty). Under Internal Revenue Code an individual is deemed to be disabled if "he is unable to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or to be of long, continued and indefinite duration." Note: The Social Security definition of disability does not apply to this exception. Proof of disability may be required by the IRS.
- Substantially Equal Periodic Payment (SEPP). Use if the distribution is part of a series of a SEPP program. Important: Any contributions or distributions other than the SEPP program distributions will be considered a modification of the SEPP program and could be cause for exemption disqualification by the IRS.

SECTION 7: Withholding

IMPORTANT: The distributions you receive from your IRA account may be subject to federal and possibly state income tax. Even if you elect not to have tax withheld, you may be liable for payment of income tax on your distribution. You may also be subject to tax penalties under the estimated tax payment rules if your withholding or payments of estimated tax, if any, are not adequate. Note: For additional information, consult your tax advisor or the IRS.

A. Federal Withholding

Indicate the federal withholding percentage to be withheld, in a whole number, between 0% and 100%. Specify 0% if you want no federal tax withheld. Please read the attached IRS "Form W-4R" for additional withholding requirements for your distribution. You may also want to consult with a tax advisor. Axos Advisor Services must have a street address on file for your account for you to elect no federal withholding. **IMPORTANT:** If no federal withholding election is made, federal withholding of 10% of any distribution will be withheld.

IMPORTANT: Specific dollar amount or non-whole number percentage of federal withholding requests will not be accepted. If a specific dollar amount was requested, federal withholding of 10% of any distribution will be withheld. If a non-whole number percentage was requested, federal withholding will be rounded up to the next whole number.

B. State Withholding

Declare your permanent state of residence. If none is given, then the address of record will be used. The account owner's legal address of record at the time of the distribution determines the state withholding requirements.

Check the box indicating the state withholding percent or amount to be withheld or check the box indicating that you want no state tax withheld. Note: Some state's withholding will be rounded to the nearest whole dollar. **IMPORTANT:** State withholding is not available for all states. General Instructions

Section references are to the Internal Revenue Code.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to www.irs.gov/FormW4R.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment or eligible rollover distribution from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See page 2 for the rules and options that are available for each type of payment. Don't use Form W-4R for periodic payments (payments made in installments at regular

intervals over a period of more than 1 year) from these plans or arrangements. Instead, use Form W-4P, Withholding Certificate for Periodic Pension or Annuity Payments. For more information on withholding, see Pub. 505, Tax Withholding and Estimated Tax.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

2025 Marginal Rate Tables

You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. See page 2 for more information on how to use this table.

* If married filing separately, use \$390,800 instead for this 37% rate.

General Instructions (*continued*)

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering “-0-” on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including “-0-”) on any payments to be delivered outside the United States and its territories.

Note: If you don’t give Form W-4R to your payer, you don’t provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can’t honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2025, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Eligible rollover distributions—20% withholding. Distributions you receive from qualified retirement plans (for example, 401(k) plans and section 457(b) plans maintained by a governmental employer) or tax-sheltered annuities that are eligible to be rolled over to an IRA or qualified plan are subject to a 20% default rate of withholding on the taxable amount of the distribution. You can’t choose withholding at a rate of less than 20% (including “-0-”). Note that the default rate of withholding may be too low for your tax situation. You may choose to enter a rate higher than 20% on line 2. Don’t give Form W-4R to your payer unless you want more than 20% withheld.

Note that the following payments are **not** eligible rollover distributions for purposes of these withholding rules:

- Qualifying “hardship” distributions;
- Distributions required by federal law, such as required minimum distributions;
- Distributions from a pension-linked emergency savings account;
- Eligible distributions to a domestic abuse victim;
- Qualified disaster recovery distributions;
- Qualified birth or adoption distributions; and
- Emergency personal expense distributions.

See Pub. 505 for details. See also *Nonperiodic payments—10% withholding* above.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter “-0-” on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 1b

For an estate, enter the estate’s employer identification number (EIN) in the area reserved for “Social security number.”

Line 2

More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including “-0-”) if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter “-0-”.

Suggestion for determining withholding. Consider using the Marginal Rate Tables on page 1 to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See *Example 1* below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See *Example 2* below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be \$20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be \$65,000 without the payment. Step 1: Because your total income without the payment, \$65,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Step 2: Because your total income with the payment, \$85,000, is greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. Because these two rates are the same, enter “22” on line 2.

Example 2. You expect your total income to be \$61,000 without the payment. Step 1: Because your total income without the payment, \$61,000, is greater than \$26,925 but less than \$63,475, the corresponding rate is 12%. Step 2: Because your total income with the payment, \$81,000, is

greater than \$63,475 but less than \$118,350, the corresponding rate is 22%. The two rates differ. \$2,475 of the \$20,000 payment is in the lower bracket (\$63,475 less your total income of \$61,000 without the payment), and \$17,525 is in the higher bracket (\$20,000 less the \$2,475 that is in the lower bracket). Multiply \$2,475 by 12% to get \$297. Multiply \$17,525 by 22% to get \$3,856. The sum of these two amounts is \$4,153. This is the estimated tax on your payment. This amount corresponds to 21% of the \$20,000 payment (\$4,153 divided by \$20,000). Enter "21" on line 2.
